

BIG BEAR MOUNTAIN RESORTS
BEAR MOUNTAIN • SNOW SUMMIT

Ski & Snowboard Rentals

This season you can speed up the process of going through the rental lines. Just have each renter fill out the Guest Info Sheet (rental form), then send them to our group sales office, with your completed order and payment, seven days in advance. Our rental department will input your guest's information ahead of time. When your group arrives, they will be given vouchers from our rental department, which can be taken directly to the ski or snowboard boot fit.

It is very important that all information is accurate and complete on the Guest Info Sheet before they are submitted to the group sales office. This will prevent wasted time in re-fitting for boots, etc.

We will need for you to separate your rental forms as follows:

- ❖ Skis and Snowboards
 - ❖ Packages and A La Carte
- Example: all lesson package rentals together, separated by ski or snowboard; all individual rentals together, separated by ski or snowboard.

This will allow our rental department to get the right product to your guests.

If your group will be arriving the day before your group visit, we can make special arrangements for your members to pick up their equipment ahead of time and keep it overnight. This will enable them to go directly to the slopes on the day of your visit. Please contact us for more information.

VERY IMPORTANT! U.S. Postal service will not deliver to our street address. Please see mailing information below.
